RECTOR'S MESSAGE:

Duishenov Damir Arypbecovich

Dear Prospective Students, Faculty, and Partners,

It is with great pride and enthusiasm that I welcome you to the University of South Asia's Medical Program. Our university is dedicated to excellence in medical education, research, and healthcare service. As the Rector, I can assure you that you are joining a vibrant academic community committed to shaping the future of medicine.

Our programs are designed to equip students with the knowledge, skills, and ethical grounding necessary to excel in the ever-evolving field of healthcare. We prioritize hands-on learning, research opportunities, and community engagement, ensuring that our graduates are not only skilled clinicians but also compassionate leaders in their communities.

Our faculty is composed of leading experts in their respective fields, committed to providing a supportive and intellectually stimulating environment. We encourage collaboration and innovation, and we strive to foster a culture of continuous improvement and excellence.

At the University of South Asia, we believe that education extends beyond the classroom. We encourage our students to participate in extracurricular activities, community service, and global health initiatives. Our goal is to produce well-rounded individuals who are not only excellent medical professionals but also responsible global citizens.

Thank you for considering the University of South Asia for your medical education. We look forward to welcoming you to our campus and supporting you on your journey to becoming a healthcare professional. Together, let's make a positive impact on the health and well-being of our communities and beyond.

DEAN'S MESSAGE:

Kozukeeva Burul Jetimishevna

Dear Students, Faculty, and Staff,

Welcome to the University of South Asia. As the Dean, it gives me great pleasure to extend my warmest greetings to all members of our esteemed institution.

At the University of South Asia, we are committed to nurturing the next generation of healthcare leaders and innovators. Our faculty comprises accomplished educators and researchers dedicated to providing the highest quality education and fostering a culture of excellence in medical practice.

As we navigate through the ever-evolving landscape of healthcare, our focus remains steadfast on equipping our students with the knowledge, skills, and compassion necessary to address the diverse healthcare needs of our communities.

Whether you are embarking on your journey as a medical student, pursuing advanced studies, or contributing to our research endeavours, know that you are an integral part of our vibrant academic community.

I encourage you to take full advantage of the myriad opportunities available to you at the University of South Asia. Embrace the challenges, engage in meaningful dialogue, and strive for excellence in all your endeavours.

Together, let us continue to uphold the noble profession of medicine and make a positive impact on the health and well-being of individuals and societies worldwide.

I wish you all a successful and fulfilling academic year ahead.

Welcome

TO UNIVERSITY OF SOUTH ASIA

Why Study in

UNIVERSITY OF SOUTH ASIA

We offer program approved and accredited by all international medical councils also approved by WHO and ECFMG. The University of South Asia isn't just a premier institution for medical and dental education; we firm believer in a comprehensive approach to learning. At the University of South Asia, we believe that students flourish when presented with both academic challenges and extracurricular opportunities in a nurturing environment. USA also occupies a leading position in the national university rankings and is represented by students from more then 25 different countries.

■ OUR MISSION

University of South Asia is dedicated to advancing healthcare through cutting-edge education, innovative research, and compassionate patient care. Our mission is to cultivate a diverse community of skilled healthcare professionals who excel in their respective fields, contributing to the well-being of individuals and communities worldwide.

We strive to provide an exceptional and inclusive learning environment that fosters intellectual curiosity, critical thinking, and a commitment to lifelong learning. Our graduates will be empowered with the knowledge, skills, and ethical values necessary to navigate the evolving landscape of healthcare and make meaningful contributions to the advancement of medical science.

■ OUR VISION

University of South Asia envisions a future where healthcare is transformed by our graduates, who are at the forefront of medical innovation, research, and practice. We aspire to be a global leader in medical education, known for producing visionary healthcare professionals who drive positive change and address the most pressing health challenges of our time.

Our vision encompasses a collaborative and interdisciplinary approach, where our students, faculty, and alumni work together to push the boundaries of medical knowledge. We aim to be a hub for groundbreaking research, fostering discoveries that translate into improved patient outcomes, enhanced healthcare delivery, and a deeper understanding of the complexities of human health.

In realizing our vision, we are committed to creating a culture of excellence, diversity, and inclusivity. University of South Asia seeks to be a beacon of innovation and compassion, influencing the future of healthcare on a global scale.

■ OUR GOAL

Our goal is to empower every medical aspirant to become a doctor and to enable each and every student to get quality education services affordably, irrespective of caste, creed, religion, age, race, gender, and nationality but respective of equality, inclusion, and humanity.

■ CORE VALUES

TRUTHFULNESS: Truth is the hallmark of all our values, principles, morals, and work ethics.

EQUITY: We believe education and healthcare are for all.

CHANGE: Change keeps us going, and good change is the focus of our innovation.

COMMITMENT: When time goes hard, we go harder.

SUPREMACY: We do the best we can and chase perfection to achieve excellence.

SUSTAINABILITY: We make sure to keep going economically, financially, environmentally, and socially.

ACCREDITATION

USA Educational activities in the specialty "General Medicine" meet the standards of international program accreditation established by the World Federation of Medical Education (WFME) and national accreditation standards.

USA is recognized by WHO and listed in the WDOMS that is published by WFME and FAIMER. We also have sponsor notes by ECFMG, which enables our graduates to take the licensing exams of countries like USA, CANADA, UK, AUSTRALIA and EU countries.

MEDICAL CLINIC

University of South Asia has an Advanced Technology Hospital that represents a paradigm shift in healthcare, combining cutting-edge technology with compassionate patient care. This state-of-the-art medical facility is designed to revolutionize the healthcare experience, providing a holistic approach to diagnosis, treatment, and recovery.

At the core of this hospital's philosophy is a commitment to integrating the latest advancements in medical technology. From the moment patients enter, they are greeted by a seamless blend of innovation and comfort. The reception area features interactive kiosks that streamline the check-in process, reducing wait times and ensuring a swift transition into the care environment.

One of the standout features of Advanced Technology Hospital is its fully digitized patient records system. Through a secure and user-friendly portal, patients can access their medical history, test results, and treatment plans in real time. This digital approach not only enhances efficiency but also fosters greater collaboration among healthcare professionals, ensuring comprehensive and coordinated care.

The hospital boasts a state-of-the-art diagnostic imaging centre equipped with the latest MRI, CT scan, and X-ray technologies. These cutting-edge imaging tools enable precise and early detection of medical conditions, laying the foundation for prompt and targeted interventions. The integration of artificial intelligence in image analysis further enhances diagnostic accuracy, setting a new standard for medical imaging.

In the realm of surgical innovation, the hospital's operating theatres are equipped with robotic-assisted surgical systems. These systems provide surgeons with enhanced precision and control, leading to minimally invasive procedures and reduced recovery times for patients. The Advanced Technology Hospital is committed to staying at the forefront of surgical advancements, regularly updating its technology to incorporate the latest breakthroughs.

EDUCATIONAL ACTIVITIES

The University of South Asia is a premier institution known for its comprehensive approach to medical education. At this esteemed university, educational activities are designed to foster a deep understanding of medical science, hands-on clinical experience, and a commitment to compassionate patient care.

Students at the University of South Asia engage in a variety of educational activities that promote both theoretical knowledge and practical skills. Lectures and seminars provide the foundational understanding of key medical concepts, while laboratory sessions and clinical rotations offer hands-on experience with the latest technologies and medical practices. The university's partnerships with leading hospitals and healthcare institutions ensure that students gain real-world experience in patient care and medical research.

The faculty at the University of South Asia are experts in their fields, dedicated to guiding students through their medical education journey. They conduct regular workshops, simulations, and case studies to enhance problem-solving skills and encourage collaborative learning. These activities help students to think critically and adapt to the dynamic nature of the healthcare industry.

Beyond the classroom, the university hosts medical conferences, guest lectures from renowned healthcare professionals, and interdisciplinary projects that encourage students to explore new avenues in medical science. The emphasis on research and innovation drives students to contribute to medical advancements, while also instilling a sense of social responsibility.

Overall, the educational activities at the University of South Asia are designed to create well-rounded medical professionals who are equipped to meet the challenges of modern healthcare and contribute positively to the well-being of society.

The USA library contains more than 128,000 electronic scientific publications and literature.

The general book fund of the Scientific Library is more than 18,000 copies.

- Textbooks, Reference books and Encyclopedias
- Dissertation abstracts and Periodicals
- Dictionaries and Manuals

RESEARCH CENTRE OF USA

University of South Asia (USA) is home to a range of cutting-edge facilities, including state-of-the-art affiliated hospitals, a morphological campus, and a simulation centre. The campus has recently added a first-rate research centre, where students can engage in various research projects under the supervision of distinguished professors from Kyrgyzstan. This centre offers students an exceptional opportunity to gain practical experience and contribute to the advancement of medical research.

ANATOMY MUSEUM OF USA

The Anatomy Museum at USA is a hub of knowledge, showcasing a remarkable collection of anatomical specimens and models. It provides hands on learning opportunities for students, reinforcing classroom knowledge and facilitating research for faculty. Beyond academia, it promotes health awareness and curiosity about the human body through educational outreach programs and exhibitions. This museum stands as a beacon of learning and discovery, empowering future medical professionals to make meaningful contributions to healthcare.

Library at the University of South Asia

At the University of South Asia, our library is a cornerstone of academic and professional development, designed to support the diverse needs of our students, faculty, and researchers. The library offers a vast collection of medical texts, journals, research papers, and multimedia resources, providing comprehensive access to the latest advancements in medical science and healthcare. It also provides online access to various databases, ensuring students have up-to-date information at their fingertips.

Computer Lab at the University of South Asia

The University of South Asia offers state-of-the-art computer labs designed to meet the diverse needs of its students and faculty. These labs are equipped with high-speed internet access, modern computers, and a variety of software tools suitable for programming, data analysis, and online examination.

The labs also have knowledgeable staff on hand to assist with technical issues and ensure a productive environment.

■ HOSTEL OF USA

Welcome to the University of South Asia (USA), where our hostel rooms are designed to offer comfort, convenience, and community for our medical students. Here's what you can expect from our hostel facilities:

Comfortable Accommodation:

Each room is furnished with comfortable beds, study desks, Almirah, and ample storage to create a home-like environment conducive to relaxation and study.

High-Speed Internet:

Stay connected with high-speed Wi-Fi throughout the hostel, ensuring you have easy access to online resources and can stay in touch with family and friends.

Study Spaces:

Dedicated study areas are available for individual or group study sessions, helping you focus on your coursework and collaborate with fellow students.

Recreation and Common Areas:

Our hostels feature with entertainment options, like TVs, sports Hall, Play Grounds, library, and comfortable seating, providing a space to unwind and socialize.

Secure Environment:

Safety is a top priority, with 24/7 security and controlled access to the hostel premises, allowing you to focus on your studies with peace of mind.

Laundry Services:

On-site laundry facilities are provided, making it easy to manage your personal belongings and stay organized.

■ HOSTEL ROOMS & MESS OF USA

Mess Hall Facilities:

Enjoy nutritious meals at the hostel Mess, which provide you with your own Country meals (indian Food, Bangladeshi Food, Pakistani food, Arabic Food) offering flexibility and convenience.

Proximity to Campus:

The hostel is conveniently located within the boundaries of the university, minimizing commute time and allowing you to make the most of your day.

Cafeteria:

The Hostel also has a Cafeteria to fulfill the dietary needs of students anytime.

Gym Facilities:

The Hostel also has an indoor gym so the students can also focus on their Fitness.

We are committed to providing a comfortable and supportive environment for all our students. Join us at the University of South Asia, where our hostel facilities are designed to enhance your university experience and foster a vibrant student community.

Admission Requirements

Applying for admission to the University of South Asia is straightforward, with only a few key requirements. The essential documents needed are academic records and a passport.

Required Documents for Admission:

STEP
01

An admission letter will be issued within 48 hours after receiving the results from your Intermediate/A-Levels/F.Sc./12th Grade.

STEP
02

An electronic visa will be provided after receiving a scanned copy of your passport and a white-background photo, along with the visa fee.

STEP
03

Once you have the visa, you can book your flight to Bishkek, Kyrgyzstan. A university representative will meet you at the airport and assist with the remaining steps, including hostel room allocation, contract signing, and registration.

Note:

The admission process is simple, and all documents can be submitted digitally. There is no need to visit the embassy, as the visa for Kyrgyzstan is electronic.
